

SUMMARY

Fresher Software Engineer with expertise in Java, Python, Spring Boot, REST APIs, and AI fundamentals. Passionate about building scalable applications, full-stack development, and continuous learning.

EDUCATION

B.Tech Computer Science - Gayatri Vidya Parishad College of Engineering for Women (2022-2026) | CGPA: 8.26

SKILLS

- Programming Languages: Java, Basics of Python.
- Web Development Skills: HTML, CSS, JavaScript, React js.
- Data Base: SQL.
- Core: Software Development Life Cycle, OOPs Concepts, DBMS, Basics of DSA.
- AI Technologies & Tools: RAGs, LLMs, GPT, VS Code, Cursor, Power BI, GitHub, MS Office.
- Soft Skills: Team Work, Problem Solving, Project Management, Good Communication, Adaptability.

PROJECTS

AI TaskFlow

Designed an AI-driven system that converts goals into structured weekly and daily task plans. Built with React, Node.js, FastAPI, MongoDB, LangChain, and Gemini AI. Implemented JWT authentication and role-based access control.

Adaptive Learning Quiz System

Web-based adaptive quiz system using Python, Flask, HTML, CSS, and JavaScript with dynamic difficulty adjustment and progress tracking.

Bank Management System

Full-stack application using React, Spring Boot, and MySQL for account creation, deposits, withdrawals, and secure REST API integration.

INTERNSHIPS & CERTIFICATIONS

- Full Stack Java development under Wipro.
- Web development Certification under EXCELR.
- Artificial Intelligence and Machine Learning Certification under ELEWAYTE pvt. Limited.
- Software programmer - python certification under CSC.
